

Oops

An oops moment is when things don't go right or

don't go to plan. Oops moments can sometimes make people

feel angry or sad or worried.

Sometimes oops moments are nobody's fault.

Oops moments happen to everyone.

Some examples are

The car breaks down so we can't go out

to the beach or zoo.

● It rains so i can't go to the park.

● Somebody accidentally steps on my foot

and it hurts me.

● Mummy is ill so can't take me out.

There are lots of oops moments that can happen. It

is good to try to remember that oops moments

are accidents and an adult will try to help me

understand. Well done.
