

Wearing my face covering

At the moment there are some people unwell with a virus

called Covid-19 or you may have also heard it called

Coronavirus.

The virus can be passed through coughing and sneezing. We

can't see these germs.

It is important to try and wear a face covering in the shops or

on the bus.

I do not need to wear one outside, because the virus

does not spread as quickly outside.

I do not need to wear one at home, because my family will

let me know if they are feeling poorly and what to do next.

Because of the virus I do need to try and wear a mask

on school transport. This will help keep me, my friends

and my family safe and well.

There are many masks and I can try and find one that makes

me feel comfortable.

It is important to try and wear a mask while I am in the

bus or taxi. If we can all try to wear a mask, this will

help keep me and everyone else safe.

I can take my mask off once I am off the bus or taxi.

It is good to wear a mask to stay safe.

I can talk to my teacher and my family if I am worried

about wearing a mask.
